Patron Count by County

Quick Reports > Patrons

Patron Count by Date of Birth

Quick Reports > Patrons

Patron Count by ZIP Code

Quick Reports > Patrons

Miscellaneous

Count of Patrons by Name Keyword Search Created in Date Range

Shared Folders > Templates > terran > Help Desk > Patrons

- To retrieve the number of Quipu (online) registrations in a given timeframe, input "quipu_remote" in the name keywords filter field. To retrieve the number of patrons who renewed their library card account online, input "quipu_renew". Please note, that if you only input "quipu," patrons that fall under both categories will populate the report, so it is important to differentiate those based on what question you are trying to answer.

Find patron by message data (sms)
