PINES New Reports Interface

Welcome

PINES staff and the PINES Reports Working Group are working on requirements to create a new reports interface for Evergreen. We hope to streamline and simplify the process for running basic daily reports so that front-line staff and directors can get the information they need quickly and independently of technical library staff.

The new interface will not recreate or replace the existing reports interface.

We appreciate your help with identifying the information most-needed by library directors and front-line staff.

Please send any inquiries about this project to:

pines-reports-wg@list.georgialibraries.org

Reports Working Group

Cristina Trotter, Oconee Regional Library
Chris Sharp, Georgia Public Library Service
Dawn Dale, Georgia Public Library Service
Dixie Henning, Houston County Public Libraries

PINES New Reports Interface

Executive Snapshot

We plan to include an executive snapshot feature that should be particularly helpful to library directors and staff that prepare and/or present information to boards, funding agencies or the media.

The executive snapshot will provide essential information in a format that is ready to print and share with others.

Please help us to prioritize the following data points and features, keeping in mind that the executive snapshot should be concise enough for easy printing and sharing.

22. PATRONS

	Essential for Snapshot	Could be Useful for Snapshot	Unnecessary for Snapshot
Count of active users (non-deleted, non-expired)	0	O	0
Count of new users	0	0	C
Count of users who circulated items	0	0	0
Count of users with active hold requests	0	O	0
Count of active users by juvenile/adult [creates a sub-list of totals]	0	0	O
Count of active users by city [creates a sub-list of totals]	0	O	O
Count of active users by county [creates a sub-list of totals]	0	0	O
Count of active users by ZIP code [creates a sub-list of totals]	0	0	O
Count of out-of-state users	0	O	O
